

## APPENDIX B-2 - Indirect Cost Split

**Completion is required if requesting a split of indirects between multiple colleges or departments. Signatures are not required. Approval through the Cayuse routing chain signifies acceptance of the percentages.**

The standard split of indirects is based on the percentage of PI participation on that particular grant as shown in Appendix A, however, non-standard splits are also acceptable.

**Standard**

**Split example:** PI 1 will perform 40% of the work and is in CAS and Geography.  
 PI 2 will perform 30% of the work and is in CAS and Economics.  
 PI 3 will perform 30% of the work and is in CAST and Agriculture.

- The College split will be as follows: CAS 70%, CAST 30% = 100%
- The Department split will be as follows: GEO 40%, ECO 30%, AGR 30%=100%

*Fillable Form – Use tab key or directional arrows to move between fields.*
